**ZONTA IN A CHANGING SOCIETY –
WAYS AND MEANS OF RESPONSE
TO EUROPEAN CHALLENGES**

The tradition of the European seminars will be continued in Vienna in 2017. The political developments of the last two years give cause to reflect and discuss the social and legal challenges of a permanently changing society. As a nonparty and nonconfessional international organization, new approaches and proposals for solutions should be developed, in order to work actively and effectively with the civil society.

Experts from politics and science will be invited as keynote speakers and for panel discussions. In the afternoon thematic workshops will be offered with the topics integration, intercultural dialogue and education. The three ZONTA Clubs would like to welcome you to Vienna and will prepare a special side programme including a visit to a „Heuriger“, a reception of the Mayor of the City, a sightseeing tour and a visit to a museum.
